Approved synthetic billing instruction

This is an approved, fictional instruction for testing a deterministic pro-rata calculation. It is not an invoice.

For the billing period 1 April 2023 to 30 April 2023, allocate the fee pool using eligible nominal holdings of ISIN XS1076957700 as at 30 April 2023.

Horizon Credit Fund A and Horizon Credit Fund B are the only eligible participants. Meridian Income Fund C is excluded because it withdrew from litigation participation before the billing-period end.

Apply the stated formula with currency rounding so the allocations reconcile exactly to the fee pool. Do not use an account or subfund outside this instruction as a billing participant.
